About me

Muin is currently pursuing Undergraduate in Computer Science and Engineering from KUET. Muin has strong passion for Ethical Hacking, Blockchain technology and Networking. Hardworking and determined to excel further in his professional career.

Skills

Swift 4.0, Solidity

Metasploit, Networking

Python, Java

C, C++

Linux, Windows

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

Education

2016-current	Bachelor's Degree <i>Computer Science and Engineering</i>	KUET
2013-2015	HSC <i>Science section</i>	Jhenidah Cadet College
2011-2013	SSC <i>Science section</i>	Jhenidah Cadet College

Qualifications

Proficiency in Linux systems: Kali linux, Ubuntu
Good command over C, C++, Python, Java, Swift, SQL, ASP.NET, XML and Assembly language.
Experience in bash, Javascript, HTML, CSS, Bootstrap, Android Studio and Git.
Experience in Oracle, Firebase, Xcode, Flex, Bison, MVC framework, Arduino
Experience in Metasploit, EVM, Ganache, Node.js, Solidity, Atom, CISCO Networking and Packet tracer.

Projects

Android application development	Weather Application
Weather forecasting application built using Android studio.	
Operating System development	Mini OS
Developed a mini OS from scratch using Linux OS	
Web development	Hello Bangladesh
Hello Bangladesh is a tourism website which helps to explore Bangladesh a lot easier using ASP.NET MVC framework.	
Peripherals and Interfacing	IOT based Home Automation
Home automation done using IOT	
iOS Application Development	Smart Dictionary
Smart dictionary using Swift 4.0 for iOS platform.	
Database project	Airline Reservation System
Database management of Airline reservation system developed using SQL on Oracle.	

Courses

CCNA Certification	CISCO
Completed CCNA course offered by CISCO from KUET.	
Metasploit Extreme on Kali Linux : Mastering Metasploit	Udemy
Practically learn hacking, Exploitation using Metasploit framework from srcatch	
Python 3 Tutorials	Sololearn
Learn Python in the most social and fun way, with SoloLearn!	
Swift 4 Fundamentals	Sololearn
Learning Swift 4.0 from the scratch and get hands-on experience by developing an iOS application.	
Introduction to Linux	courses.edx.org
Helps you to understand Linux in depth.	
Advanced Penetration Testing	cybrary.it
Guides you through the process of penetration testing and hands-on experience on the lab tutorials.	

Thesis

Smart Contracts using Blockchain Technology
Doing my thesis on implementation of Smart Contracts using Blockchain Technology in real life.
